

A MESSAGE FROM OUR PRESIDENT:

Simply stated, we're back!

Global Tec is proud to announce our reentry into the manufacturing of custom fiber and copper assemblies.

With 35 years history you can expect the same "no nonsense" 24/7/365 customer care when ordering from our comprehensive offering of fiber, copper and custom USA made assemblies.

We look forward to serving you once again and providing you with customer care second to no one. You deserve nothing less than that.

WE'RE BACK!

Stan Lichenstein

PRESIDENT
